Saturn of Terre Haute Breaks Ground On Expansion

Terre Haute – After 8+ successful years in business, Saturn of Terre Haute -- part of the ever-growing Romain Automotive Group of Evansville Indiana – construction is underway on an expansion to the dealership located at 5377 U.S. Hwy 41 South, just north of the Wal-Mart Superstore.

The expansion, as explained by General Manager Bill Lutes, will add badly-needed space to the current building. Bill states, “We are excited about this expansion because it speaks positively about how the community has welcomed both the Saturn car brand and our high-quality selection of Pre-Owned vehicles. Without the loyal patronage of our many customers, the dedication of the dealership staff, and the commitment from ownership, this expansion would not be happening!”

Ron Romain, President of the Romain Automotive Group, added, “Bill and I are pleased and proud to have reached this milestone at Saturn of Terre Haute! This project is an acknowledgement of our on-going efforts to give Saturn of Terre Haute customers a world-class buying and service experience. The expansion will provide new space for dealership service bays and a larger parts department, all designed to enhance the customer experience.”

The firm of Hannum, Wagle & Cline was selected for design work, with Garmong Construction Services handling the construction. Work on the 5,000 square foot building addition began on April 1st with completion expected by August 1st. The dealership will remain open Monday – Saturday and continue normal sales, parts, and service hours and operations.

The Romain Automotive Group is part of United Companies, named in June 2007 by Indiana Business Magazine as one of Indiana’s Top 50 Largest Private Companies. With corporate offices in Evansville, IN, United Companies is comprised of United Leasing, Inc., Professional Transportation, Inc., and the Romain Automotive Group which owns and operates a total of five new car dealerships: two in Evansville, IN; two in the Detroit, MI metro area; and one in Terre Haute, IN. In total, United Companies employs over 2,500 associates, has direct operations at 130 locations in 21 states, and leased assets in all 50 continental states, Mexico, Canada, and Puerto Rico.
