## **HWC Purchases New Office in Terre Haute**

TERRE HAUTE, Ind. — We've moved! After sharing an office for many years with its sister company, Garmong Construction Services, the Terre Haute office of HWC Engineering recently moved into a new office space. Now located at 601 S. 3<sup>rd</sup> Street, HWC looks forward to continuing to grow and reinforce its own identity as a full service engineering and consulting firm in the Wabash Valley and throughout the state.

HWC's new office was purchased and after finishing a complete interior remodel, the staff relocated from their previous home on Poplar Street.

"We are glad to have been able to purchase a building for our staff and contribute to the local economy. As real estate owners we will continue to invest in the City of Terre Haute," said HWC president Ed Jolliffe. "We are excited about the future of our Terre Haute office. This new office will give us the ability to better recruit the talented engineers we need to serve our many clients."

An open house is being planned and will be held at HWC's new office location at a later date.
