JOB POSTING: BRIDGE TRANSPORTATION CAD DESIGNER

HWC Engineering is accepting applications for a qualified, self-motivated Bridge-Transportation CAD Designer. The position will report directly to the Indianapolis, Indiana office and will work with our Bridge Engineering team to develop plan sets for a variety of projects in Indiana.

JOB RESPONSIBILITIES

- Developing CAD drawings utilizing Microstation for Bridge and other structural projects
- Utilizing appropriate CAD Standards and Best Practices to develop drawings
- Completing industry standard Quantity Calculations
- Graphically presenting information and detail in a clear and concise manner
- Reviewing Drawings and Plans to verify Quality, Accuracy, and Clarity
- Ability to Communicate, Organize, and Manage amidst multiple job tasks

MINIMUM REQUIREMENTS

- 3+ Years of Bridge CAD Drafting experience
- Experience with Microstation, or a willingness to learn the software

PREFERRED REQUIREMENTS

- Experience with INDOT CAD Standards
- Experience utilizing InRoads or OpenRoads Bentley tools
- Experience with communication between multiple departments to develop Plan Sets

ADDITIONAL CONSIDERATIONS

Applicant should possess strong skills in Critical Thinking, Time Management, and Problem-Solving.

Applicant should be Self-Motivated and Responsible to efficiently work remotely from home.

Applicant must possess high ethical standards, have a strong sense of commitment to self-development, teamwork, and a desire to work in a deadline-driven team environment.

HOW TO APPLY

If you feel you are qualified and would like to be considered for this opportunity, please email your qualifications to hwcjobs@hwcengineering.com. Have different skills and experience than this job description offers? Please give us a call anyway, as we are actively looking to add the best and brightest people to our team and we would be excited to hear how you can contribute your passion for planning to our practice!
